MOVING THE LIMITS OF THE POSSIBLE

HANDMADE PIRNAR COLLECTION 2021

Take a look at the latest video content in
PIRNAR's digital world!

WWW.PIRNAR.CO.UK

We believe in miracles.

We believe in the boundless potential of the human imagination. We believe in a future that pushes the limits of what is possible. We are proud to be trend creators and the first choice for those with exquisite taste, thanks to the best of our products.

For those who know that nothing is impossible.

For you.

THE CLOSEST THING TO PERFECTION

PIRNAR ULTIMUM®

It catches your eye from a distance.

You walk towards it, subconsciously picking up the pace. You cannot look away, cannot help but smile. What divine pleasure it is to feel these surfaces and shapes under your fingertips! You run your hand over it in awe as it takes your breath away.

It's unforgettable. An aesthetic and technical masterpiece, it has been honoured at the German Design Awards many times between 2015 and 2019.

PIRNAR Ultimium®. Made to impress.

*To be one's self, and unafraid whether right
or wrong, is more admirable than the easy
cowardice of surrender to conformity.*

—— IRVING WALLACE

YOU ARE EXCEPTIONAL.

There is no one like you. You make your own way like nobody else. Others admire your independent mind and the courage it takes to stay true to yourself.

It is very rare that something takes our breath away, surprises us with its glory, overwhelms our senses, hearts and minds. Pirnar entrances stand out due to their unique shapes, materials, masterful precision and smart innovations. They make those who follow green with envy.

You understand why immediately. Pirnar entrances are the product of passion and the conviction that there are no limits. Which is what guides you in life as well.

*You gain strength, courage and confidence by every
experience in which you really stop to look fear in the face.*

— ELEANOR ROOSEVELT

YOU BELIEVE IN YOURSELF.

You know very well that confidence is something we create ourselves day by day. That it is a skill, not something you are born with. That is the result of believing in your ability to change the world and having a clear vision for the future. You believe that you can be the best.

At Pirnar, we believe that nothing can stop us in our search for superlatives. Every innovation we present to the world makes us want to do better. We are driven by an unremitting inner force that makes us want to push the limits of the possible.

We create for people who believe in themselves. For people like you.

*Innovation distinguishes between
a leader and a follower.*

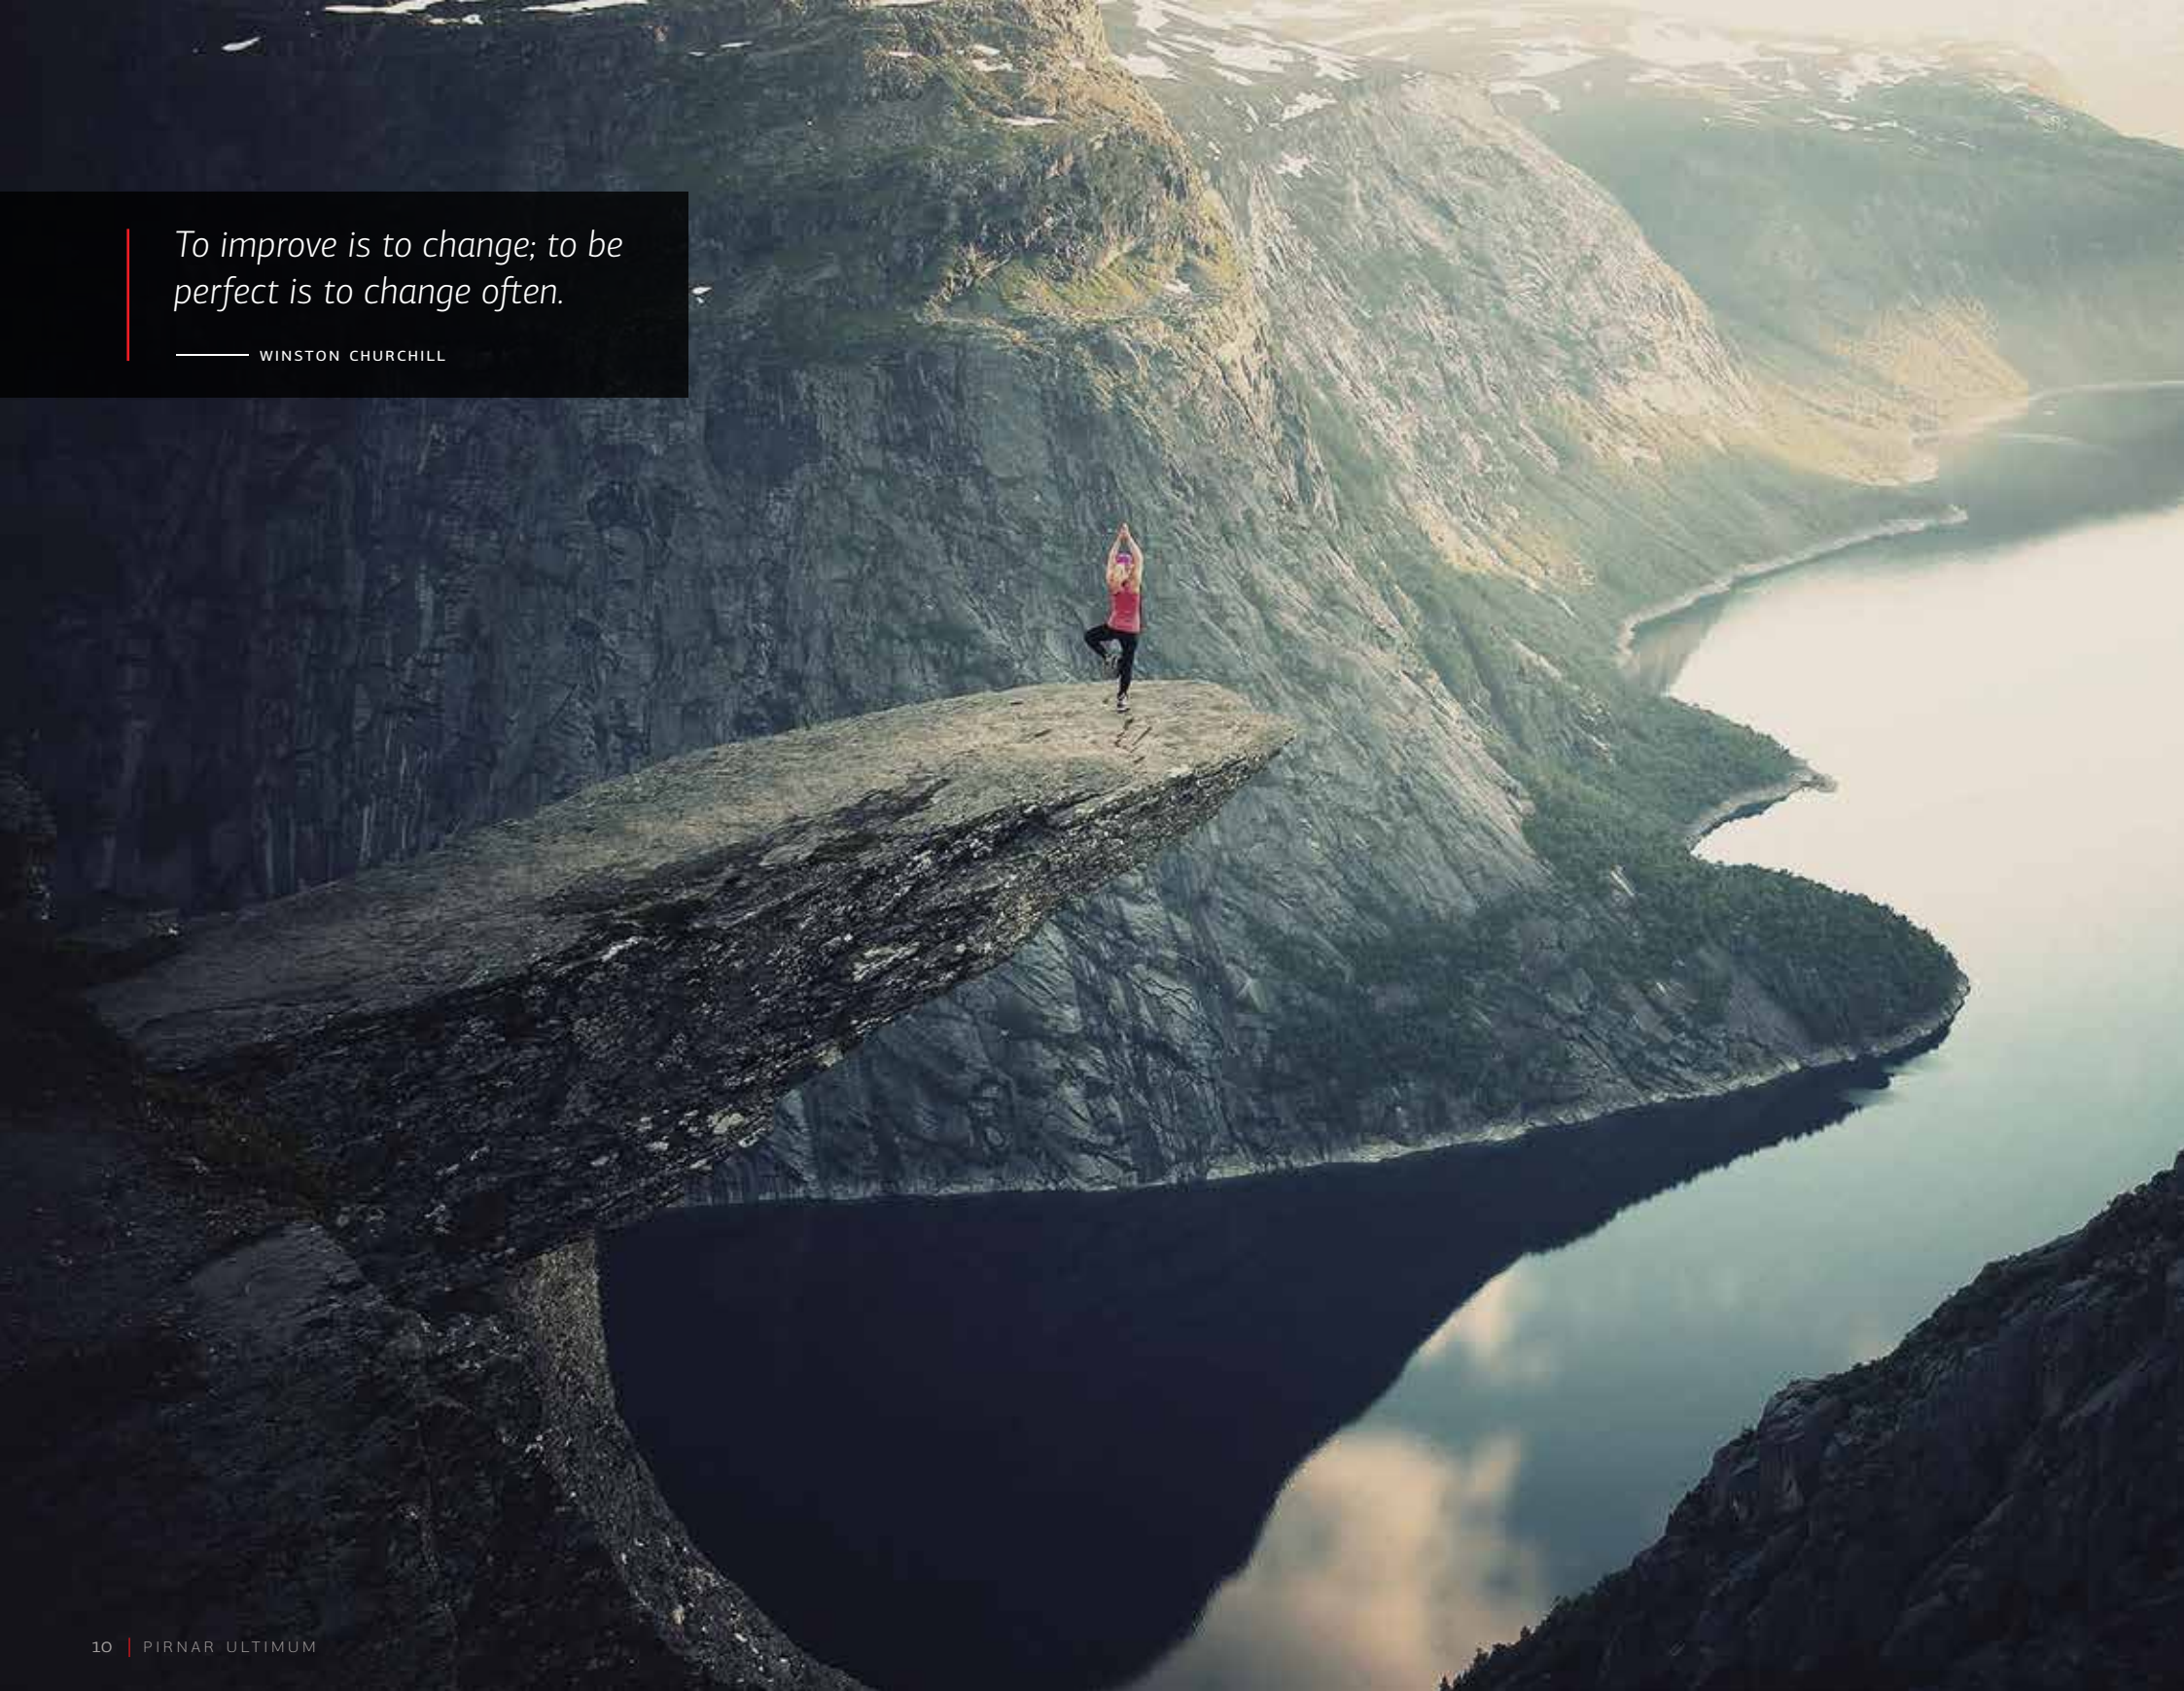

— STEVE JOBS

YOU ARE CREATIVE.

You hold the power to change yourself – as well as the world around you. You see every obstacle as a challenge that is bound to be solved sooner or later.

At Pirnar, we do not believe in the impossible either. We were the first to create both a multi-level door design and a completely flat entrance. We were the first to mass-produce the most exceptional aluminium entrances. We regularly break world records in the thermal insulation of aluminium doors.

We take raw materials, inspiration and passion and create things with our hands that turn people's heads. What a pleasure it is to create for creative people.

*To improve is to change; to be
perfect is to change often.*

— WINSTON CHURCHILL

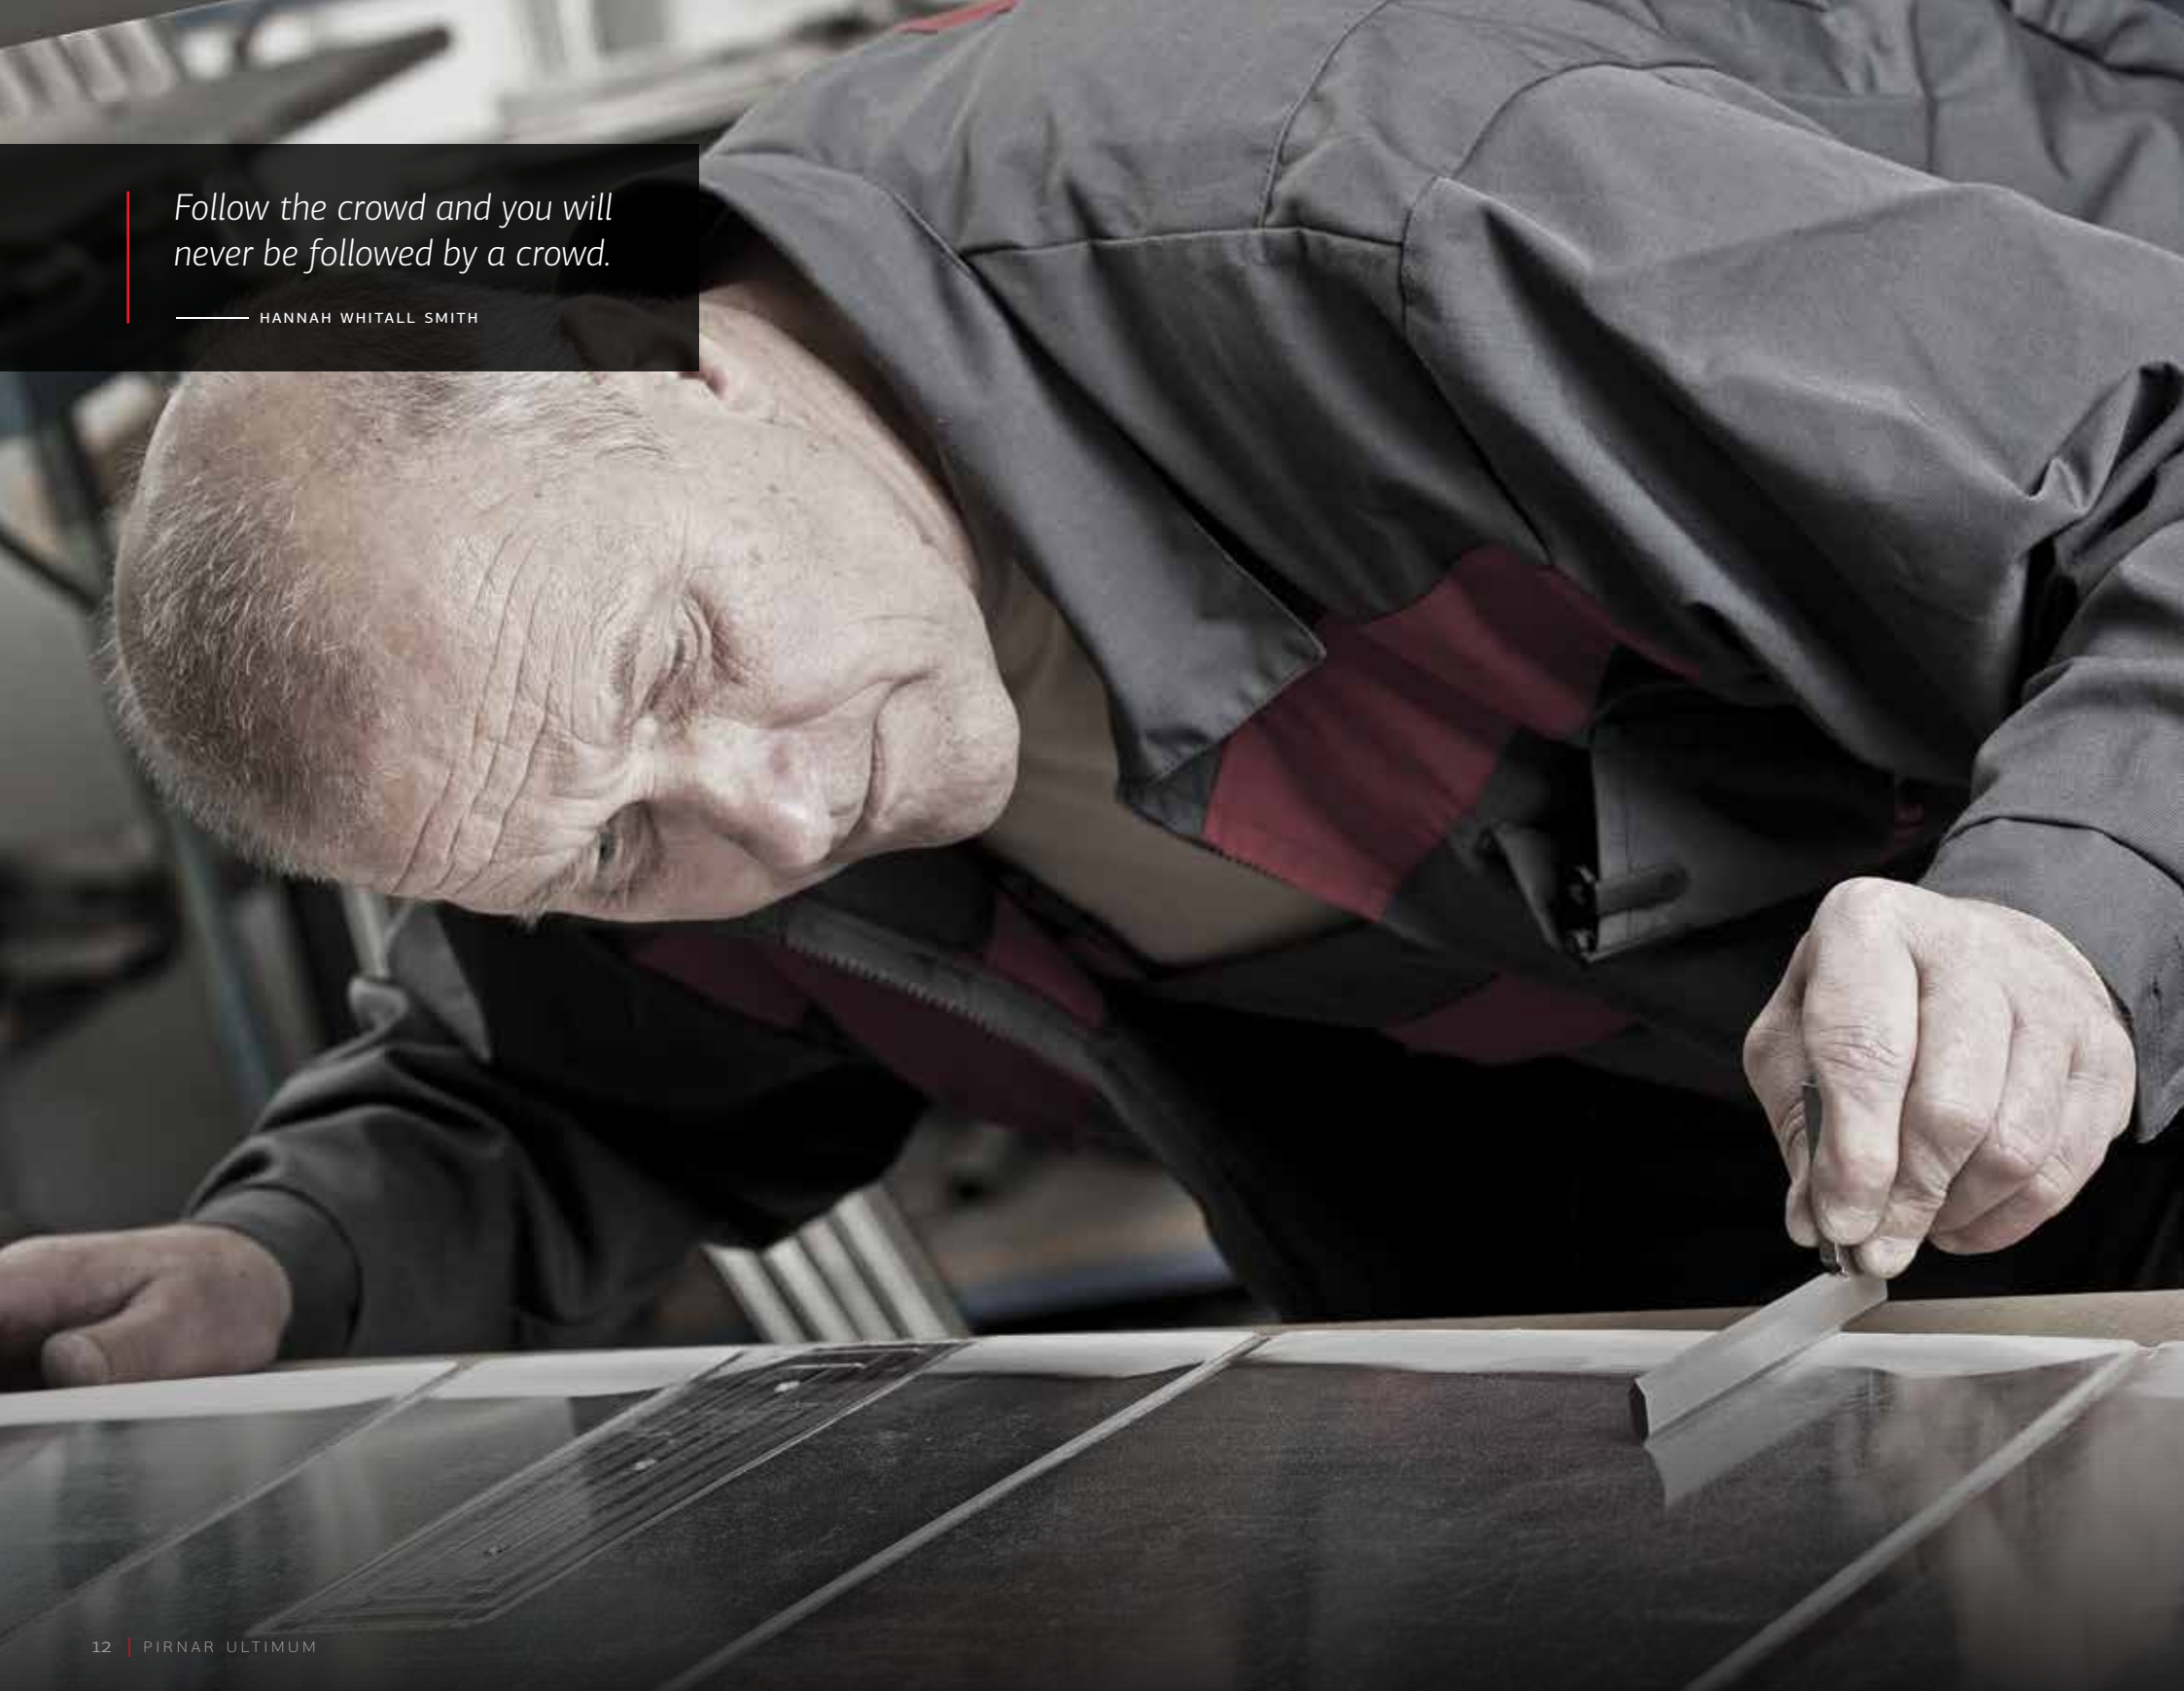

YOU ARE PERFECT.

We are born perfect, but then life denies us this secret by moulding and shaping us in different ways. It takes decades upon decades to rediscover our temperament and realise that, at our core, we are – perfect.

Nature is perfect. Its immense power has created wonders that the human mind can barely comprehend, that excite scientists and astound each and every one of us. Its only constant is its constant progress. Perpetual optimisation. Ceaseless improvement of everything in existence.

We believe that this is an example to be followed. We are not satisfied with excellence. Or greatness. We know there is always room for improvement. The only way we know leads to perfection. To what we are at our very core.

*Follow the crowd and you will
never be followed by a crowd.*

— HANNAH WHITALL SMITH

YOU ARE UNIQUE.

There is no one like you. The way you live is unique.

Your home is priceless, it is exceptional. The only one of its kind in the world – as are you. You live, create and dream in it in your own special way. Your home is your fingerprint – a unique combination of style that expresses who and what you are. A person who does not compromise. Who only accepts the same perfection they are known for.

The entrance is the first point of contact with your home. It is an indicator of what is inside. What you are like on the inside. Gracious, determined, committed to excellence.

Pirnar entrances are proof of your uniqueness, which is obvious to people at first sight.

*A designer knows he has achieved perfection
not when there is nothing left to add,
but when there is nothing left to take away.*

— ANTOINE DE SAINT-EXUPERY

YOU DO NOT ACCEPT COMPROMISE.

When it comes to the most important things in life, there is no middle way. Just as there is no middle way between the real and the unreal, the excellent and the average, or excitement and boredom.

At Pirnar, we only have one goal – to amaze. Once the course is set, no obstacle can make us change course. We persevere. We refuse to give up. For as long as it takes for a solution to present itself and find its way into the world. Onto the desks of our designers, engineers and experts with their magic touch. Where the impossible becomes possible.

You shun compromise. For you, as for us, the only option is to find a solution that will elicit pride when you look at your door.

*Only those who believe in
themselves shine when it matters.*

MAURICE GREENE

YOU SHINE WHERE OTHERS DO NOT.

Not everyone can be a shining example to others. You are. You are an example of what you can achieve in life. You are proof that having a vision, courage and perseverance allows you to tackle all obstacles and create light where there was once darkness.

Such as with Pirnar doors. When they light up, it looks like magic. The night is no longer the dark part of the day, it is instead a lightshow that does not end until morning. A handle with enigmatic illumination, abundant light decor on the door itself, a softly lit doorstep. The awe never ends. The entrance – no, the home itself – comes alive.

Your home is now warm, inviting, comfortable and safe. Shine like a star!

YOUR HOME IS YOUR MASTERPIECE.

What is born in your dreams, you create without compromise in reality. Especially if it seems incompatible, inconceivable and impossible at first. That is when you get that spark in your eyes and no force in the world can prevent you from reaching for the stars.

We would love to become part of your masterpiece. We leave the selection of the strongest materials almost completely up to you. With the utmost precision and masterful craftsmanship, we will build you an entrance door made of aluminum, wood, carbon, glass or stainless steel that will blend perfectly with the other architectural elements of your urban masterpiece – your home!

Welcome to
PIRNAR's
digital world

*Big results require
big ambition.*

— HERACLITUS

THERE ARE NO LIMITS.

GRANDE For the grand.

Sometimes size does matter. Spacious rooms with high ceilings, majestic villas, castles and masterpieces of modern architecture cannot be fitted with a run-of-the-mill entrance. And some simply refuse to have a regular-sized entrance. A select number of Pirnar entrances can be produced as Grande entrances, measuring up to 300 cm in height and 280 cm in width. Along with side elements, they create an impression of breath-taking grandeur. Grande is a world of unparalleled elegance. It is an entrance for spaces and people that are larger than life.

Welcome to
PIRNAR's
digital world

A photograph of a modern building entrance at night. The entrance features a large, dark, textured wall with a series of vertical glass panels. The interior is brightly lit, and the entrance is illuminated by warm, yellow light. A large, dark, rounded object sits on the ground in the foreground. The overall aesthetic is minimalist and contemporary.

THE BEST IS NOTICED BY THE BEST.

Innovative Pirnar entrance doors are setting new trends in entrance door design. They have received numerous design awards, including some of the most prestigious, such as the international Red Dot Design Award, German Design Award Winner and German Innovation Award Winner.

PURE THERE ARE ENTRANCES THAT TAKE YOUR BREATH AWAY.

Some entrances just leave you at a loss for words. You just have to make a stop, every time before you enter.

Some entrances call for the hand to slide over them. For the changing surfaces and textures to not only be seen, but also stroked and experienced through touch.

This is **ULTIMUM® PURE**. Purity of surfaces where nothing defaces the perfect flat surface. An entrance for the most up to date houses and the most demanding admirers of perfection. A perfection where nothing can be added or taken away. Where all the elements merge into a unified plane with no unnecessary edges or frames. Where everything is one.

Pure is a secret. Touch it.

OneTouch INNOVATION

Patented handle function, which automatically opens and closes with the help of a finger scanner.

MULTILEVEL THE ENTRANCE THAT EVERYBODY NOTICES.

ULTIMUM® MULTILEVEL is something people would never expect. It is the breakthrough from the constraint of flatness into the three dimensions. It is the surprise that entices the viewer to step closer and feel the dynamic surface. It is a tectonic movement in entrance door design. It is innovation achievable only with skilled hand-crafting and top level technology.

ULTIMUM® MULTILEVEL is an outstanding and noticeable entrance for people with charisma. It is for those who are unafraid to speak their mind and show their uniqueness. It is for the leaders. The right entrance for you.

Stand out.

TOUCH IT.

To see a photograph of a PIRNAR *Ultimum*® entrance is enrapturing. But it does not come close to the real surprise, not even in your dreams. The real surprise is when you look at these masterpieces with your own two eyes and slide your hand over their edges and surfaces.

Only then can you capture the size of the entrance. Only then can you feel how the door opens. Only then can you fully understand the solid feeling that their exceptional thickness evokes.

Experience how it feels to be a guest standing in front of your house. Pure admiration.

Welcome to
PIRNAR's

Please recycle.

Let our award-winning masterpieces impress you in person! Get a real feel for them in our showroom.

PIRNAR models are protected by copyright. We reserve the right to change prices, text and technical descriptions without prior notice. Images are symbolic and can not always reflect the exact condition. Variations in colour may occur due to the technical printing process. Colours should be checked using the RAL colour chart or wood samples.

The varnished surfaces of ALU PIRNAR entrance doors are exceptionally colour persistent, which is attained with special electrostatic powder-coating on a previously chromated base. The paintwork follows the RAL RG 631 quality standard provision in line with specified visual observation guidelines (viewing distance 5 m outside, and 3 m inside).

Wood is a natural product therefore the surface of the same wood type may display colour differences. Sometimes these natural wood characteristics can not even be eliminated with glazing. The resulting colour discrepancies as well as deviations in colour patterns are therefore seen as natural and are accepted as such.
